New York, April 16.-Bradstreet's tomor-Weather, crop and industrial reports are

Weather, crop and industrial reports are still very irregular, rendering general characterization difficult. Taken as a whole, there is, however, a slightly larger business doing, this being particularly true of retail trade in sections where weather permits and booking for fall and winter delivery at wholesale.

Business on the Pacific coast has expanded slightly, particularly in California. In the central west, retail trade is expanding slowly, and a rather better business is reported with country merchants, but jobbing activity is not as pronounced as it was some weeks ago.

Industry is in a rather spotted condition. There is more doing in fron and steel, but largely, it is claimed, at the expense of prices.

While reports of immense activity in the leather market seem rather premature, it is evident that manufacturers are buying more freely. Hides are, however, rather quiet. Eastern shoe manufacturers have about come to the end of their stocks.
Business failures in the United States for the week ending with April 15 were 201, against 227 last week, 261 in the like week of 1908.

Wheat, including flour, exports from the United States and Canada for the week ending April 15 aggregate 1.475.500 bushes, against 1.062.244 bushels last week and 2,470.177 bushels this week last year.

Corn exports for the week are 799,800. against 926.838 last week, and 292.338 in 1908. For the forty-two weeks ending April 15. this year, the exports are 150.060.570 bushels, against 114.376.92 bushels in the same period last year.

Dun's Review.

R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:
Although the movement of trade is slow, it is of large volume and steadily in the direction of improvement.
In iron and steel the structural lines In iron and steel the structural lines continue to relifect a broader demand, contracts placed thus far this month comprising a very substantial tonnage and considerable new business is also in sight. The railroads are taking advantage of the low prices named to make necessary improvements and extensions, while the advancing season has stimulated building the early part of the session.
